Parable Of The Patch And Wine Skins In Scripture

Am also a Commissioned Catholic Men Association (CMA), Member and a Lover of the Catholic Church and its teachings.. Rather, they pour new wine into fresh wineskins, and both are preserved Jesus answered this question in two ways; 1) Because Jesus was still with them, His disciples did not need to fast but when he would be gone back to The Father, His disciples would need to fast.. My passion is disseminating the Catholic Daily Readings and Reflections, Bible Verse of the Day, Catholic Quote of the Day and Catholic Saint of the Day Information every day to all Catholic Faithfuls throughout the world.. ' But I don't understand the analogy I cannot even remember anyone explaining its meaning as with the parables.. I have never understood Mk 2:22 I understand that unfermented wine will expand and stretch the skin of its container as it ferments, thus breaking an already stretched 'old wineskin.. The disciples of Jesus would need to fast the way Jesus taught them The new wineskins are the peoples hearts that have accepted the new ways that Jesus was preaching about.. One other question that I'll try to slip in: If God is infinite, then there is no place that He is not.. After He is gone and the disciples begin to fast, they would not fast like the pharisees did because they fasted in a hypocritical way that was not appealing to God.. The new wine is the Good News and teaching by our Lord Jesus Christ To mend their bad ways, they had to completely transform and become new wineskins, so that the Good News from Jesus could start to manifest in them.
